

Private and Semi-Private Training

If you are new to pilates, the best way to get started is to take advantage of our \$45 Introductory Session. This 50 minute private session will acquaint you with the fundamental concepts of pilates. During your introductory lesson, you and your instructor will discuss your past health and fitness history, your goals and assess your physical capabilities in order to provide you with a personalized program.

After the introductory session, students generally enter the Reach Pilates program through a series of 5-10 private sessions. Thereafter, students may choose to continue with private or semi-private training or join an 8-week session class. Please call 650-289-9459 to schedule an appointment.

8-Week Class Program

Reach Pilates Studio offers small-group (5 person maximum), apparatus based classes on an 8-week session basis. Prior to joining a group class students must complete a series of private sessions in order to learn the fundamentals of the pilates method. This prerequisite is to ensure students work safely and correctly on the equipment and gain maximum benefit from their workout.

Classes may not be appropriate for all students, especially students dealing with chronic or acute injuries.

Please speak with an instructor, call the studio 650-289-9459 or email deasterling@reachfitness.com for a more detailed explanation.
